

Connectivity Platform

From siloed data to shared intelligence

Your service data is scattered. Aquant connects your systems and workflows so the right people get the critical information they need, instantly.

Connect instantly

Plug Aquant into your existing stack in days, not months. Choose from 1,200+ pre-built connectors or create secure, custom links with our low-code integration layer.

Unify your data

Bring all your service data into one connected view. Aquant automatically maps, standardizes, and enriches your data so your teams can make faster, smarter decisions.

Stay in sync

As your systems evolve, Aquant keeps up. Continuous, automated updates ensure your data always reflects the latest information from across your tech stack.

Scale with ease

Add new data sources, teams, or regions without rearchitecting. Enterprise-grade security, governance, and monitoring come standard, so you can grow with confidence.

“Aquant has provided Waters with valuable expertise and a faster time to market than us trying to build this from scratch.”

How Top Equipment Manufacturers Connect with Aquant

Challenge

Field teams needed fast access to service documentation stored across multiple SharePoint sites.

Solution

Used Aquant’s pre-built SharePoint connector to unify 4 repositories and nearly 8,000 files within the Aquant platform.

Results

Dealers find troubleshooting steps up to 70% faster, speeding repairs, boosting dealer satisfaction, and maximizing uptime.

Ongoing impact

6 content updates a day on average, automatically synced.

Challenge

Service data lived in Salesforce, disconnected from knowledge libraries and KPIs.

Solution

Leveraged Aquant’s Salesforce connector to integrate nearly 10,000 files, mapping service objects, workflows, and permissions.

Results

Beckman increased throughput and repair quality via faster, data-driven decisions, lifting efficiency and customer satisfaction.

Ongoing Impact

10–100 file updates per week, automatically synced.

The security & compliance you need.

READY FOR ANYTHING

Aquant is the Agentic AI platform built for organizations that build, sell, and service complex equipment. Unlike generic AI tools, Aquant combines deep domain expertise with intelligent agents that understand the language of service. The platform captures both documented knowledge and institutional know-how, delivering expert-level guidance to every role—from technicians and contact center agents to leaders across the business.

 aquant.ai

A mockup of the Aquant user interface. At the top, a white speech bubble contains a microphone icon and the text "I need help with calibration", with a small circular profile picture of a man to its right. Below this, a larger white chat window is shown. On the left side of the chat window is a circular profile picture of a man. The chat window contains a text input field with the placeholder "What's the part number?". Below the input field is the Aquant logo. Underneath the logo is a button with a star icon and the text "Let's get started...". Below the button are two gray rectangular blocks representing message history. At the bottom right of the chat window is a small inset window titled "Revenue" with a dollar sign icon. It displays a line chart with the Aquant logo on it, showing revenue trends from February to December. The y-axis ranges from 20 to 80, and the x-axis lists the months: Feb, Apr, Jun, Aug, Oct, Dec.
